Messe Freiburg Free WiFi

Messe Freiburg Free WiFi

Please note the following information:

You will need a wireless-enabled device using the international wireless standard IEEE 802.11 a/n in order to use the WiFi.

The maximum speed is up to 1 Mbit/s per device — however, the actual speed may be lower depending on the number of users.

Full coverage cannot always be guaranteed when there is a high number of WiFi users.

Mobile device users can go online free of charge for a **maximum of 30 minutes**. Using the WiFi for more than 30 minutes is subject to a fee of 5 EUR for another 3 hours, or 30 EUR for another 24 hours. Vouchers are available at the information desk in the foyer or via the online portal.

It is possible to pay with both cash and credit card on-site. Online payments are only possible with a credit card.

Premium WiFi

Should you require a higher bandwidth, we would advise you to purchase our premium WiFi via the online portal or from the information desk in the foyer. This grants access to high-speed internet without bandwidth limitations.
